Name Outstanding Homemakers and Farmers Tuesday

Two Maine homemakers and two farmers were honored by the University of Maine at a ceremony held in connection with Farm and Home Week, Tuesday evening, April 5.

Named outstanding farmers and homemakers were John W. Ingraham, of Knox; Mrs. Lucy M. Moody, of Monroe; Mrs. Florence M. Peck, of Nobleboro; and Beverly P. Rand, of Sherman Mills.

President Arthur A. Hauke of the University of Maine conferred the honors on the four outstanding Maine citizens.

As part of the program also was an address by Maine Congressman Clifford G. McIntire on "The Goal of Leadership." McIntire, a former native was recognized as an outstanding farmer by the University of Maine in 1950. He was elected chief farmer last year by the men and women who have also been recipients of outstanding farmer and homemaker awards.

Mr. R. L. Beukenkamp, agricultural attaché at The Netherlands embassy in Washington, gave the principal address of the evening. His subject was "The Challenge of the Divided World." Of particular interest to Farm and Home Week visitors was the fact that his wife spoke Tuesday afternoon. Mrs. Beukenkamp's topic was "Farm Life in the Netherlands."

NEW LOCAL OFFICIALS APPOINTED BY GOVERNOR

(Contributed)

Several appointments have been officially made to citizens of Bethel this past winter, which may have escaped general notice, but which should be of interest to all, because they add to the legal security and ready action of results to all who need such assistance as the legal appointees are empowered by law to give.

Last November Sam T. Smith was appointed a Justice of the Peace by Governor Cross and Council, and recently Governor Muskie and Council appointed Mr. Smith to the Selective Service Board of Oxford County. For the past year or more the Board has functioned with but two of three members required, and now with the Bethel and North Oxford County area represented, the County is well balanced in coverage.

The recent appointment of Attorney Gerry Brooks to the office of Trial Justice, and the establishment of such a court in Bethel, should be a keen sense of pleasure to all citizens. Such a court has long been needed in this area. Heretofore all cases requiring court action had to be referred to either Rumford or Norway, and especially in the cases involving infractions of law on highways, or fish and game violations, the duties of the officers empowered to enforce these laws were greatly curtailed and hampered by the excess mileage involved, and subsequent loss of time in making these trips to and from distant courts. Justice Brooks is an ideal appointee, and his knowledge of the law, coolness, and deliberation, will undoubtedly make his court truly a court of justice.

Supplementing the Trial Justice Court and adding to the speeding up of trial cases is also the recent appointment of Sam T. Smith as Ball Commissioner, which should go far in untangling some of the long delays and embarrassments caused heretofore due to the lack of a local court or ball commissioner.

Also the voters took a long step forward in the last meeting of the Village Corporation, by voting to employ a night police officer with the powers and authority of a constable. Our night policeman now will be empowered to make arrests and with a local Trial Justice

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

I have hesitated to make any mention in this item of the passing of Mr. Bingham due to the short time I have been here and never having had the privilege of meeting the very benevolent gentleman. However, I believe it is time we realize (as no doubt most every one does) it will have a very real effect on every citizen in Bethel for some time. Probably one of the first results will show up in the increase in the tax burden assumed by the rest of the taxpayers. This may not appear too much in 1955 but it seems to be a very real possibility.

We hope the situation may be solved in some way, perhaps new arrangements can be made, perhaps some new industry may develop. It will warrant some careful study and serious consideration. I am very glad the Chamber of Commerce is already informed and interested in the situation.

SENIOR MYX GOES TO WORCESTER, MASS.

Last Friday morning at 8 o'clock the Senior Methodist Youth Fellowship formed a motor caravan of five cars and left Bethel for an overnight visit to Worcester, Mass., arriving in Worcester about 3:30 p. m.

The group's first stop was Worcester's Natural History Museum. Here they heard an astronomy lecture in the museum planetarium and were given an informal guided tour of the museum.

After checking in at the YWCA and YMCA for overnight rooming the tourists ate supper in one of Worcester's better restaurants. When all hunger was satisfied the group returned to the YWCA for a roller-skating party. The evening was complete with seeing the motion picture, "The Country Girl."

Saturday morning the MYXers gathered for breakfast in the YWCA cafeteria. With contented appetites they began an interesting visitation of the John W. Higgins Armory which displayed the development of the use of pressed steel. The group thoroughly enjoyed seeing the excellent exhibit of knights' armor and methods.

The Worcester Art Museum cordially invited the Bethel youths to a tasty luncheon of cakes, cookies and apple turnovers. Miss Alice Mundi, museum librarian, enlightened her guests with a personally conducted tour of the museum.

First Church, Sterling, was the last Massachusetts point of interest visited. Here the Bethelites were warmly received by Rev. Maurice Mahler, and the Sterling youth group. The Bethel group was given an interesting tour through the church and Parish house. Building construction was still in process as the Bethel group were shown the unfinished chapel, the many individual Sunday school class rooms as well as a modern study for the pastor. The Sterling visit concluded with refreshments being served in the beautiful auditorium and both groups joining together in a hymn-sing.

On the way back to Bethel the group enjoyed a chicken banquet at Howard Johnson's on the Maine Turnpike.

Youths taking the trip were: Judy Freeman, Rachel Kneeland, Betty Lou York, Gloria Wilson, Malvern Wilson, Glenyce Berry, Arthur Ring, Teddy Carter, Tommy Carter, George Stowell, Mary Laxton, Pat Kitzredge, Lillian Curries, Polly King, Gerry King, and Carla Grover. Adult escorts who did a wonderful job of chaperoning were Mrs. Dorothy Kirkpatrick, Mr. and Mrs. John K. Brown and Rev. Robert Carter.

Jack Matheson has completed his duties as night watchman in the Village Corporation.

Parker W. Davis returned home from the V. A. Hospital in Boston last week. He has to return again in May.

Students spending vacations at their homes here this week include: Frank Flint, Paul Fossett, Joan Bennett, Sheila Nary, Nancy Willard, Sally Brown, Phyllis Smith, and Laura Wilson.

Carlton Brown is one of 80 students of the Morrisville, N. Y., Agricultural and Technical Institute, who are spending a week in the automotive plants and schools in Detroit, Mich.

Mrs. Fern Jordan and Mrs. Thirza Gibson, as delegates from the Bethel Evening Extension Group, Mrs. Abbie Brown and Mrs. Maude Hunt are attending Farm and Home Week in Orono.

WILLIAM F. WALKER

William F. Walker passed away on Friday, April 1, at the home of his daughter, Mrs. Harold Brooke, in Whitehall, N. Y. Mr. Walker had been living with his daughter since the death of Mrs. Walker in Newry in July, 1954.

He had been in poor health for several years and for about three years he had been totally blind. Mr. Walker was born in Newry 78 years ago and had spent most of his life there. When a young man he felt the call to roam and went to British Columbia for a few years. On his return trip he visited his school days friend, Bernice Richardson of Norway, who was then employed in Montana. Here they were married in June, 1904.

Soon after their marriage they returned to Newry, where they have since lived except for a few years spent at Rumford Point.

Mr. Walker was a real genius. His mechanical mind and his deft hands enabled him to do many kinds of work. Perhaps he might be best called a carpenter, but he was more than that. He would not only build a house, install the water supply and in some cases make part of the furniture. He was in demand as a carpenter, mason, and painter, but more than that he was the "handy man" for many homes in Newry and nearby towns.

No repair job was too intricate for him to attempt. His well-equipped work shop was a popular place for farmers and others who needed assistance in wood or iron work.

Mr. Walker was always busy but he could find time to chat with his customers. He was a good story teller. His originality in expressing himself and his subtle humor never failed to amuse and delight his listeners. His endeared characteristics will long be remembered by those who knew him best but chief among these were his honesty, his sense of justice and fair play and his generous response to the needy and unfortunate.

In the passing of Will Walker Newry has lost one of its oldest and most loyal citizens.

He leaves one daughter, Mrs. Wilma Brooke, who with her husband, has devotedly cared for him since the death of his wife. He also leaves two grandchildren, Mrs. Arlene Wallenhorst of New York, and Harold Brooke of Jefferson, N. H., and nine great-grandchildren.

Funeral services were held Sunday afternoon at the Newry Church Rev. Robert A. Carter officiating. Interment was in the North Newry Cemetery.

WE QUOTE

Babies Don't Vote

Babies don't vote. Growups are too stupid to realize what is being done to the babies.

This cynical attitude seems the only explanation for the formula that is being developed by Congress. Cut taxes to make the growups happy. Don't offend the farm vote, the labor vote, the veteran vote, or any other special interest vote, by cutting spending that affects them. Borrow money to make up the deficit caused by the tax reduction. Increase the debt. Let today's babies and to-

morrow's babies worry about paying for the debt.

"Blessing on thee, little man, Barefoot boy with cheek of tan, Trudging down a dusty lane; With no thought of future pain; You're our one and only bet To absorb the national debt. Little man, with ears so few, We've a lot of faith in you; Have your fun now while you can, You may be a barefoot man!"

Economic Highlights

Happenings That Affect the Future of Every Individual — National and International Problems Inseparable from Local Welfare.

As long as civilization has existed, men have attempted to forecast the future. Palmists and crystal ball readers and other such performers have piled their arts for centuries, and are still doing it.

In this complex modern era, a very different category of forecasting has been developed and it has flourished like the green bay tree. It is based on the principle of using more or less proven methods and data to anticipate what will happen in the business and economic sphere in months or years to come. It has been said that every major business policy decision is an exercise in forecasting in a double sense, for it concerns both the future of the economy as a whole and the future of the individual business involved. Thus, the owners and managers of businesses of almost every kind and size are constantly engaged in some variety of forecasting. Many large enterprises employ economists and statisticians for that purpose. A number of the government departments periodically issue forecasts concerning prospects for employment, agricultural sales, business volume, consumer demands, and so on.

The Chamber of Commerce of the United States has published a booklet on the subject. Designed primarily to help business executives make their own economic forecasts, it lists the major techniques in general use. It also explains some of the pitfalls, and tells where past forecasts have gone wrong and why. A prime example of this occurred when Colin Clark of Oxford forecast that the United States was due for a cataclysmic depression in 1951. Dr. Clark is a distinguished

economist, and his views got world wide attention. His error was in relying entirely on mathematical formula which proved fallible.

The Chamber's booklet lists six different types of economic and business forecasting. Here is a brief note on each one:

Economic Models. There are mathematical analyses of past relationships, such as sales and national income, from which predictions may be made. The danger lies in assuming that the relationships have been measured accurately and will remain unchanged.

Sector Analysis. The economy is divided into key sectors—agriculture, foreign trade, construction, agriculture, etc. Each is analyzed, and a summary made to get the outlook as a whole.

Money & Credit. These forecasts are based on the idea that major recessions have occurred here after a decline in the money supply. Barometers or Signals. Indicators such as new incorporations, stock prices, hours worked, and others are considered as signals of turning points, either up or down.

Simple Trend Projection. The forecaster plots production, shipments or sales over the past few years and from them projects next year's trend. One catch is that sometimes trends are extremely difficult to recognize.

Appraising Expectations. The forecaster takes into account the opinions of executives, salesmen, consumers and others. Obviously, in the course of doing this he may be exposed to guesswork and hunches.

Any kind of forecasting, the booklet observes, is more of an art than a science. It believes that the words "watch out for surprises" should be written across the pages of every forecast. That seems to be excellent advice.

AGE-OLD EASTER MESSAGE

DALE CARNEGIE

★ AUTHOR OF "HOW TO STOP WORRYING AND START LIVING" ★

HERE'S a brief and to the point story, told me by George Visson.

Everts, of 1327 Concourse, New York City.

He didn't feel well so he called his doctor and was told that he had ulcers of the stomach. That could be bad, often it was. Sometimes even a forerunner of Cancer. So he went to the hospital and had the usual tests and treatment, all the time worrying about what would happen to his wife and two children if worse came to worst. His two aging parents, he was their only child, what a blow might be inflicted on them; they would have no one to lean on now.

They did not give him much to eat at the hospital, but he did not want even what he was allowed. For five days and five nights he lay there worrying, worrying. Not a happy thought entered his head. When his wife came—his parents were not physically able to make the trip—he hated to look her in the face. He wished they had saved more, that his insurance was larger. He slept only, when given a sedative.

On the fifth day, the doctors—two of them—came to him. They looked at him, as he thought, a bit scornfully. "Get up from there, you Bum," said the one he had known since childhood, "get up and go home; relax, take plenty of outdoor exercise. Forget you have any nerves. AND STOP WORRYING, for that's all that is the matter with you."

And that's the end of the story! says George Everts.

CARNEGIE

IT'S UP TO YOU

By Howard E. Kerchner, L.L.D.

A flat tire is no justification for discarding the automobile. A burned out tube is no reason to junk the radio.

Weaknesses in human nature and evil individuals are not adequate cause to forsake the American way of life. We all have such weaknesses but that should not stop us from striving to make life better. Let not the critic who capitalizes on our shortcomings, blind us to our strengths and discourage us to further effort.

The institution of marriage does not work perfectly. There are some weaknesses in most homes and there are serious problems in broken homes. But we do not consider abandoning the institution of marriage. With all its imperfections it is one of our most satisfactory achievements. Let us work for a better understanding between marriage partners. By more ethical, emotional and mental considerations, we can help individuals make adjustments that are necessary for living.

The church is a divine institution but it does not always function perfectly. Looking back over the pages of history we find that many on-forgotten actions have been taken in the name of religion. Where would we look today to find even a perfect congregation with a perfect minister, perfect church service, and perfect laymen. Yet we would never think of doing away with the church because of its imperfections. Religion offers the best hope for developing the self-reliance and character necessary for national success. Christianity appeals to imperfect individuals and offers a way to help them overcome their weaknesses.

Mostly because we have strangled it with too much government, our economic system of free enterprise does not work perfectly. But that does not mean that the principles upon which it is based are wrong. Failure due to human weaknesses cannot change these fundamental facts.

Since we are imperfect humans we shall never find a political system, an economic system or a religious organization that will function perfectly. Let us not talk of destroying our principles nor our American way of life by surrendering more of our freedom. Rather let us strive through cooperation and better understanding to achieve more freedom and to make our good system even better.

"The History of Free Industrial competition in America is a history of more products, better products and lower-priced products in terms of the labor needed to buy them."—Annals (Conn.) Book.

THE LOW DOWN

FROM

HICKORY GROVE

You know, this report to the USA House of Representatives by NY Congressman Gwin—as I read it in the papers—is going to take some of the gusty wind from the sails of the liberal and socialist element that keep telling us of the grandeur of TVA. The report gets down to figures and facts—it crases the claims we been hearing for 10 1/2 years, that this socialist venture is what the doctor ordered, and that the region would blossom and grow and show the Nation what happens when "the people" take over.

The report shows what does happen—but it has no resemblance to a flourishing green bay tree, it is vice versa.

Amongst the nearby 10 southern states which use privately produced electricity, Tennessee now ranks fourth in population, the same as 15 years ago. In farm receipts it has slipped from fifth to eighth place. In retail sales it has slumped from second to the fifth spot. In postal receipts it slid from third to fourth. In the value of manufactured products the decline has been from third to fourth position.

In the meanwhile 108 million new bucks were poured into the venture. Without this 108 added million put in circulation there, the situation would be less healthy more sickly. The other 47 states need get out their pencils and scratch pads—somebody is getting rooked. It is a flimsy affair—but brothers and sisters, expensive, and all states share therein. On each April 1st a part of that bad taste can be traced smack to TVA's door.

Yours with the low down,
JOE SCHULTZ

While the right to talk may be the beginning of freedom, the necessity of listening is what makes the right important.

SCANNING THE NEWS

ONE of the most vital issues which is posed before the American people and the Federal government is the question of what to do about the rapidly dwindling rural and farm population of the country.

According to the latest figures available farm population has decreased more than eight million since 1920. At the same time our overall population has increased by 41 million. Small independent farmers are being forced from their land at a rate of approximately 75,000 per year. It takes no especial imagination to see that some 30,000 more farmsteads are leaving the rural communities for the city every year.

The glib answer that modern technology and machines will fill more acres with less men than ever before in history, and that modern agricultural techniques will grow on one acre more product than grew before does not solve the problem.

The bald fact is that the replacement of the small farm family by the large corporate farms which swallow up acres as the farmer leaves, is but a historical repetition of conditions which have preceded the fall of every highly civilized nation in the pages of history. The Communists upheaval in Russia was successful principally because of the lure offered by its leaders to take the land away from the nobility and give it to the peasants; The Reds in China have built their revolution and their subversive campaigns in southeast Asia

on promises of small family sized farms for the people.

And as a matter of fact our own country itself is supporting a redistribution of the lands in Italy, in Germany, in Japan and in India . . . to give the people farms upon which to work and grow a living.

Thomas Jefferson the author of our Declaration of Independence and one of the architects of our Constitution said: "Cultivators of the earth are the most valuable citizens. They are the most virtuous, and they are tied to their country and wedded to its liberty and interests by the most lasting bonds."

Congressman Wright Patman, of Texas made a speech on the floor of the Congress recently pointing out the dangers of our present lackadaisical attitude toward a problem which is rapidly approaching a crisis.

Congressman Patman proposed a bill a year ago, and again is proposing it in this Congress. His bill would limit government benefits to any farm up to a level of \$7,000 gross product. After the farmer has received his government benefits up to the family sized farm level of \$7,000 gross products, he receives no more government aid. If he should produce \$25,000 or \$30,000 or a million dollars of corn, wheat, oats, cotton, or other products, he would get his government benefits on \$7,000 of product and sell the rest of his production on the free market without the benefit of any

government assistance.

In tests we all did well. Our rank cards came out today. There have been two and a half days of absence since last ranking period. We have decorated eggs in many ways, such as boats, Indians, Easter bunnies, rabbits, bearded men, and clowns. We brought our egg tree in this morning and placed it in our sand table. Some of us are working on a beautiful Easter poster. There are three singers with a background of colored glass windows. Last week we were snowbound and this week our yard is clear of snow. The upper grades have written plays to go with the marionettes which we have up. We'll present them in May. Mr. Christie visited us last week but had to walk in from the corner. The nurse came the same day but she didn't come in. I think the snow drifts looked too deep. Reporter, Colista Curtis.

Adventists Start on Annual Missions Appeal

Members of the Seventh-day Adventist church will cut corners on routine activities for the next three or four weeks in order to participate actively in the denomination's annual Missions Appeal, beginning April 2.

Elder Reese Jenkins, pastor of the Woodstock Adventist congregation, reports that last year the denomination spent approximately \$60,000,000 in its medical, educational, evangelistic, and welfare work. In addition to the regular mission program, individual churches operated welfare activities that last year saw 1,201,700 persons given aid valued at \$10,420,000.

"Our members are not professional solicitors," the minister pointed out, "nor do they particularly enjoy climbing hundreds of door steps and knocking on hundreds of doors during the drive. But they want to contribute this time and energy in addition to their financial contributions in order to bring aid to the millions on earth who suffer physical, mental, and spiritual malnutrition."

Each solicitor will carry official

GRASS ROOTS OPINION

"Governments will have to cut spending or raise taxes or eventually go bankrupt just the same as a private family that continuously spends beyond its means. If anyone can figure out a different answer let him come forward with his ideas." — Biddeford (Maine) Journal.

Orange Grove, Texas, Observer: "The need and the desire to serve have always been and always will be a major motivating force of business. Neighbor competes with neighbor....but nearly always to the end of giving the consumer more and better products, superior service, higher value. This is the American tradition."

Topanga, Calif., Journal: "...We reprint here the historic declaration of the 1954 Indiana general assembly: Indiana needs no guardian and intends to have none. We Hoosiers—like the people of our Sister States—were fooled for quite a spell by the magicians' trick that a dollar taxed out of our pockets and sent to Washington will be bigger when it comes back to us. We found that it lost weight in its journey to Washington and back. The political brokerage of the bureaucrats has been deducted. We have decided that there is no wealth to tax that is not already within the boundaries of the 48 states. Indiana has lived up to that philosophy. It is estimated that since 1951 the State has passed up \$25 million in federal handouts."

Thursday, April 7

Read Matthew 10:16-23.

Examine yourselves, whether ye be in the faith. (II Corinthians 13:5).

On this Thursday in Holy Week, many Christians around the world will gather at the table of our Lord and Saviour to partake of the bread and wine in remembrance of Him. With a little imagination we see them come, His believing children, of all races and nations. Many Christian groups are represented. We are agreed that Jesus Christ is the Lamb of God who takes away the sins of the world, and that His spirit dwells within the hearts of believers. We are also agreed that if these elements are taken by faith, they become a means of grace to the soul of the participant.

As we partake of these elements, let us earnestly seek the forgiveness of our sins that His spirit may bear witness with our spirits that we are children of God. We can then arise and go in His power and peace to live as becomes sons and daughters of the most high God, our Father.

Prayer

Our Father, we are unworthy of Thy love as revealed to us in the person of Christ, Thy Son. Teach us obedience to Thy will as our best way to express our gratitude to Him for His suffering and death for our sakes. We pray the Holy Spirit may come and dwell with us, For Jesus sake. Amen.

Thought For The Day
I will take time to hear and heed the voice of Christ this day.

Braves' Spahn Set for 20-Victory Season

Manager Charlie Grimm of the Milwaukee Braves calls Pitcher Warren Spahn the greatest left-hander in baseball today. And, Grimm adds, one of the best any time, anywhere.

There's some basis for Grimm's evaluation. Spahn has been a 20-game winner in six of his major league seasons, and twice he was low in the earned-run department, in 1947 with 2.33, and in 1953 with 2.10.

What is Spahn's formula for success? Well, it's a simple one the way he told it to a reporter for The Sporting News. The story is in the current issue.

"I only pitch to win," Spahn said. "Let the no-hitters and shut-outs fall where they may." That's his all-inclusive formula stated in about as few words as possible.

"Technically," Spahn said, "perhaps I am after a no-hit game from the start but I don't think about it. After the first hit I kind of say to myself not to allow any more. After the first run I mentally decide that that should be all. Sure, all pitchers want shut-outs, and I am no different. But victory comes first. That's what we are paid for."

Spahn certainly does what he is paid for, and it might be said in passing that he gets pretty good pay. He's one of the highest-salaried pitchers in the game. As for winning, no other National League lefthander has ever won 20 or more games in six different seasons.

Spahn told The Sporting News writer that perhaps he does "coast" a little if he gets a pretty good margin. But why not, he asked, unless a shut-out was in the making. "But," he said, "I usually try to get the first two men in an inning so that a dangerous rally is not so likely to occur."

Spahn has never pitched a no-hitter, but says he has no regrets about it. He thinks they are bad luck. A number of pitchers, he said, have never been the same after pitching a no-hitter. He has had two big-league one-hitters. In one game, against the Cardinals, Pitcher Al Brazie spoiled a no-hitter for him by dumping a pop fly single back of second base. The other spoiler was Richie Ashburn of the Phillies who topped a ball toward short and was safe by an eyelash for the only hit of the game.

The great lefty is 34 years old now. While his record now is a

remarkable one, it might have been much better had he not lost three seasons while in the Army, or had he been with a club in the first division more often before the Braves moved to Milwaukee. But among his distinctions is his record of having had only one losing season in the 13 he has been in organized ball. That was in 1951 when his record with the fourth-place Braves was 14 won, 19 lost. Even so, his earned-run average that year was 2.93.

Only one major league club has beaten Spahn oftener than he has won. That's Brooklyn, which has an edge of 23 to 13. His best success has been against Cincinnati, with 38 victories and eight defeats, against the Cardinals, with a 30 won-21 lost record.

Records show that his strike-out output has been falling off, since his high of 191 in 1950, but his main idea is to "get 'em out." With a new season ahead, he hopes to get 'em out enough for another 20-victory year.

The Cincinnati slugger, Ted Kluszewski, is believed by many to be capable of breaking Babe Ruth's home run record. But as for Ted

himself, says The Sporting News, he doesn't intend to make any deliberate attempt to break it. If he doesn't come big this year, can't he be done by trying, he says. "The only time I ever deliberately went out after homers last year," Ted said the other day, "was in the last five games. I had 49 homers and wanted to make it 50. I swung for the fences, but couldn't make it. Which proves my point."

The Sporting News in a column of quotations picked up here and there has this one from Joe DiMaggio, speaking about Mickey Mantle: "I never saw a young ball

player who had so much equipment. This is his fifth year, isn't it? Well, if he doesn't come big this year, I'm afraid he never will. Five years is enough time for anybody."

The Pittsburgh Pirates still owe Paul Pettit \$40,000 on the original \$100,000 bonus he received several years ago. The Sporting News says Pettit is being paid at the rate of \$6,000 a year. Touted highly as a pitcher and hitter while a rookie, Pettit failed to come through in the majors. He is attempting to make a comeback as a first baseman with Hollywood this year.

Conservation Farming in Oxford County
by Douglas L. Marston
Soil Conservation Service

There seems to be quite a bit of interest in the use of chemicals to clear brush from pastures. The Agricultural Conservation Program has a practice this year that will pay up to 50% of the costs of doing the work and several farmers have shown some intention of doing work this year.

Carroll Wadsworth Jr. of Hiram plans to spray about 7 acres on his pastures. Carroll did some spraying on alders several years ago and had very good results. I was talking with Oscar Wyman, who is the leading authority on agricultural chemicals here in the state, and he says that juniper, or ground hemlock is very difficult to kill with chemicals.

Mr Wyman says that juniper burns very well at this time of year and he feels that it is the best method of getting rid of them. Of course great care must be used to keep the fire under control and this method should not be used where there is any danger of the fire spreading to other areas. We still have a good snow cover in most areas and this will offer the best protection from fire.

If you plan to burn any juniper thing spring (within the next week to 10 days) be sure to get a permit from your fire warden and have a good crew on hand.

Brownie Troop No. 6 met Tuesday at the home of Charlene Swain.

An Easter egg hunt and many other games were enjoyed. Refreshments of cookies and punch were served by Linda and Charlene.

Patrol 4—Those attending the Girl Scout Jubilee in Portland last Saturday were, Mrs. Bea Brown, Linda and Nancy Brown, Nikki McMillin, Terry Parsons, Dixie Brown and Hope Parsons. We had a grand time and feel we all learned a great deal from the Jubilee. The Booths were wonderful and we were delighted to find a former classmate, Janet Cragin, working in one of them. We also were very pleased to see Bonnie Whitman singing in the Girl Scout Chorus. We visited the Fish Hatchery at Dry Mills, and only hope to catch a few of those "little" trout while camping this summer!! Wednesday afternoon was just too nice weather to stay inside, so out door we went. We sold cookies and gathered papers at the same time. This was fun and profitable as well. Many people have asked for mint cookies, and the coconut cookies like we sold last year. We are sold out of these at present, but will have more very soon. Just tell one of our girls how many you want and she'll deliver them when they come. Our Camp Fund is growing very well, thanks to all our friends.

Pine Tree Patrol, Girl Scouts, Unit A, met Tuesday afternoon at the home of their leader. Refreshments were served by Sheila Roberts and Carol Keoske. Plans were made for a hike at next week's meeting. All Scouts passed the Bird Badge requirements after which a game of jump rope was enjoyed outdoors.

Pine Tree Patrol, Girl Scouts, Unit B, met Tuesday afternoon at their leader's home. Scouts formed the horseshoe and held the regular meeting, after which Julia Brown, Evelyn Sprague, Sharon York, and Judy Currier prepared

dishes for supper, which they served to the group. In this way the girls passed these requirements for the Cook Badge. Nancy Cole, Bonnie Eames, Sharon York and Judy Currier, using a doll, demonstrated bathing a baby. They prepared a bath tray and dramatized an interview with a mother who had asked them to care for their children. These were some of the requirements for the Child Care Badge. Judy Currier, Nancy Cole and Sharon York passed Bird Badge requirements. Bonnie Eames and Evelyn Sprague will serve refreshments at the next meeting.

Brownie Troop 7 met at the leader's home. Refreshments were served by Jackie Crouse and Brenda Sweet. We went on a hike and found Evergreen Road, the new street in Bethel. Committee for games is Diane Swain and Ethel Kimball. Refreshment committee is Caroline Roberts and Barbara Hutchinson.

Brownies Troop 6 met at the home of the leader Caroline Merrill and went to the home of Charlene Swain, where an Easter egg hunt was enjoyed outdoors.
